A Money Market Account provides competitive Money Market interest rates, tiered to pay you more as you save more.

- \$0 Monthly Service Charge
- \$100 Required to Open Account
- A Dormant Account Fee of \$10.00 per statement cycle will be charged after 24 statement cycles of inactivity

Certificates of Deposit

A Certificate of Deposit offers the flexibility of a short-term investment or the earning power of a longer-term investment. For added savings, your interest may be reinvested in your certificate, or if you prefer, deposited into your Dogwood State Bank checking or savings account, or remitted via check. For your convenience, all our certificates are automatically renewed.

- \$500 Required to Open Account
- Terms from 3 months to 5 years

Individual Retirement Accounts

Dogwood State Bank offers a variety of options including Roth, Educational and Traditional IRAs. Depending on the

option you choose, a Dogwood State Bank IRA provides either tax-deferred or tax-free savings at competitive interest rates.

- \$500 Required to Open Account
- Terms from 3 months to 5 years

Business Services

Checking

Business Plus Checking

If your business has 200 debit transactions or fewer per month, Business Plus Checking from Dogwood State Bank may be just the account for you. If you keep a \$1,000 minimum daily balance, there is no Monthly Service Charge for this account.

- \$10 Monthly Service Charge (\$0 if maintain \$1,000 minimum daily balance)
- 200 Items Allowed Per Month (debit only)
- \$0.20 Fee Per Item Over Allowed Number
- \$100 Required to Open Account

Business Platinum Checking

As your business grows and the number of transactions increases, consider Business Platinum Checking. With 500 debit transactions or fewer per month, Business Platinum Checking from Dogwood State Bank is right for you. If you keep a \$5,000 Minimum Daily Balance, there is no Monthly Service Charge for this account. Your first order of special Business

Platinum checks is free.

- \$20 Monthly Service Charge (\$0 if maintain \$5,000 minimum daily balance)
- 500 Debit Items Allowed Per Month
- \$0.20 Fee Per Item Over Allowed Number
- \$100 Required to Open Account

Commercial Analysis Checking

Taking advantage of the benefits and flexibility of Commercial Analysis Checking makes sense for larger businesses that have a great number of transactions each statement cycle. Earnings credit is applied to this account based on your balance level, and if it is large enough, it will offset any charges that may occur on the account.

Savings & Investments

Business Money Market

A Business Money Market Account provides competitive money market interest rates, tiered to pay you more as you save more.

- No Monthly Service Charge
- \$100 Required to Open Account
- \$1,000 or more Account Balance Required to Earn Interest

Certificates of Deposit

A Certificate of Deposit from Dogwood State Bank offers the flexibility of a short-term investment or the earning power of a long-term investment, whichever meets the needs of your business. For added savings, your interest may be reinvested in your certificate, or if you prefer, we can deposit your interest into your Dogwood State Bank checking account. All of our certificates are automatically renewable.

- \$500 Required to Open Account
- Terms from 3 months to 5 years

Financing

Dogwood State Bank offers a variety of lending options to help your business grow. Every business is unique, and your Dogwood State Bank lender will customize your financing to best fulfill your needs.

Lines of Credit

For businesses that need a revolving line of credit or overdraft protection for their business checking accounts, we offer Dogwood State Bank Business Lines of Credit.

Letters of Credit

Term Loans

For help in making capital acquisitions such as inventory, equipment, or real estate, we offer Dogwood State Bank Business Term Loans.

Real Estate Loans

For owner occupied and investment property real estate, construction and/or development.

Business Visa® Card (*Cards are issued by TCM Bank, N.A.*)

As with any Visa Card, the Dogwood State Bank Business Visa® Card means worldwide acceptance and convenience.

The Dogwood State Bank Business Visa® Card is a financial and cash management tool. It can be used to pay for everything from office supplies to airline tickets, hotel accommodations, car rentals and much more. This is the only card you will ever need while shopping, dining, traveling or entertaining. You can pay in full each month, or you may revolve and pay a minimum monthly payment of the outstanding balance based on the terms and conditions detailed on the card application.

Commercial Purchasing Card *(Visa® Cards are issued by PNC Bank)*

The Dogwood State Bank Commercial Purchasing card is a financial and cash management tool designed to provide financing of accounts payable for commercial clients. Features include reporting beyond what a standard business credit card program offers. Additional features include administrative functions to manage cards in real-time and the potential to earn rebates. The card is paid in full each month with limits reviewed annually.

Small Business Administration (SBA)

As an experienced SBA Lender, Dogwood State Bank Small Business Lending offers dynamic solutions that other banks cannot. Our program offers a fast loan process, higher loan amounts, and longer repayment terms. By getting to know your business and its unique challenges, we can customize a loan to address both your current business needs and future growth.

We offer a full suite of SBA loan products, including the SBA 7(a) loan, the SBA 504 loan, the SBA Express Loan Program, and USDA Lending. These products can be combined to offer a fully customized loan solution for business acquisitions and expansions, commercial real estate, franchise purchases, partnership buyouts, and more.

The SBA lending specialists at Dogwood State Bank Small Business Lending are dedicated to helping your small business grow and thrive. Wherever you are on your business journey, Dogwood State Bank Small Business Lending is here to help you reach your goals.

6 | Other Information

Home Mortgage Disclosure Act (HMDA) Notice

Home Mortgage Disclosure Act (HMDA) data about our residential mortgage lending is available online for review. The data shows geographic distribution of loans and applications; ethnicity, race, sex, age, and income of applicants and borrowers; and information about loan approvals and denials.

This data is available at the Consumer Financial Protection Bureau's website at www.consumerfinance.gov/hmda. HMDA data for other financial institutions is also available at this website.

Loan-to-Deposit Ratio

Quarter Ending	Bank Loan-to-Deposit Ratio (Per UPBR, Net Loans & Leases to Deposit Ratio)
December 31, 2024	99.86%
September 30, 2024	94.86%
June 30, 2024	98.60%
March 31, 2024	94.09%
December 31, 2023	91.99%

Location of Public Information

Dogwood State Bank's CRA Public File is available to the public available on our website at dogwoodstatebank.com and for inspection upon request and at no cost at the following three locations.

The main office, located at 5401 Six Forks Road, Suite 100, Raleigh, NC 27609
Walhalla, South Carolina branch, located at 3685 Blue Ridge Blvd, Walhalla SC 29691
Elizabethton, Tennessee branch, located at 632 E Elk Ave, Elizabethton TN 37643

Copies

Dogwood State Bank is pleased to provide information for public inspection under the CRA. Interested parties can review the data provided and print hard copies of documents as needed by visiting our website at dogwoodstatebank.com. Dogwood State Bank is able to provide printed copies of these documents; however, we may charge a reasonable fee to cover copy and mailing expenses.

File Updates

In compliance with CRA requirements, Dogwood State Bank shall ensure that the information within the CRA Public File is current as of April 1 of each year.

All written comments received from the public for the current year and each of the prior two calendar years relating specifically to the Bank's performance in helping to meet community credit needs and response to the comments by the Bank will be maintained in the CRA Public File and updated on a quarterly basis.

7 | Performance Evaluation prepared by FDIC.

Dogwood State Bank's most recent CRA Performance Evaluation was prepared by the FDIC on June 20, 2023.

This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, nor should it be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated Satisfactory.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area, including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities.

The Lending Test is rated Satisfactory.

- The loan-to-deposit ratio is more than reasonable given the institution's size and financial condition and the assessment areas' credit needs.
- The bank made a majority of its small business loans inside of the assessment areas.
- The Geographic Distribution of loans reflects reasonable dispersion throughout the assessment areas.
- The distribution of loans reflects reasonable penetration among businesses of different sizes.
- The institution has not received any CRA-related complaints since the previous evaluation; therefore, this criterion did not affect the Lending Test rating.

The Community Development Test is rated Outstanding.

The institution demonstrated excellent responsiveness to the community development needs of its assessment areas through community development loans, qualified investments, and community development services. Examiners considered the institution's capacity and the need and availability of such opportunities for community development in the assessment areas. While the bank provided limited community development services, the community development loans are substantial, and qualified investments are significant and very responsive to identified needs related to affordable housing.

DESCRIPTION OF INSTITUTION

Dogwood State Bank is a \$1.2 billion state-chartered financial institution headquartered in Raleigh, North Carolina. The bank has no affiliate or subsidiary relationships. The institution received a Satisfactory rating at its previous FDIC CRA Performance Evaluation dated February 18, 2020, based on the Small Institution Examination Procedures.

The bank operates seven full-service locations within North Carolina. There have been changes to the branching structure and assessment areas since the previous evaluation. On May 11, 2020, the bank opened a new branch in an upper-income census tract in Charlotte, North Carolina (Mecklenburg County). On March 8, 2021, the bank opened a new branch in an upper-income census tract in Sanford, North Carolina (Lee County). Lastly, on December 12, 2022, the bank converted a Loan Production Office in a moderate-income census tract in Fayetteville, North Carolina (Cumberland County) to a full-service branch. The bank has not closed any branches since the previous evaluation.

During the evaluation period, Dogwood State Bank offered commercial, home mortgage, and consumer lending, with the primary focus on commercial lending. In addition, the bank is a Small Business Administration (SBA) lender and offers a full suite of SBA loan products, including SBA 7(a), SBA 504, and SBA Express Loan Program. The bank also offers loans through the United States Department of Agriculture (USDA). The bank offered a variety of deposit accounts including personal savings, personal checking, money market, and business checking, certificates of deposit, and individual retirement accounts. In addition, Dogwood State Bank offers alternative delivery channels for consumer and business accessibility with online banking, mobile banking, and remote capture services. The bank does not operate any automated teller machines

As of the March 31, 2023, Consolidated Reports of Condition and Income (Call Report), the bank had total assets of \$1.2 billion, total deposits of \$942.5 million, and total loans of \$917.4 million. Since the previous CRA performance evaluation, total assets have increased significantly from \$347.5 million, representing a 238.1 percent growth. Simultaneously, the bank experienced a 292.1 percent increase in total deposits and a 257.9 percent increase in total loans. The following tables provides the categorization of loans as of March 31, 2023.

Loan Portfolio Distribution as of 3/31/2023		
Loan Category	\$(000s)	%
Construction, Land Development, and Other Land Loans	103,197	11.2
Secured by Farmland	942	0.1
Secured by 1-4 Family Residential Properties	125,946	13.7
Secured by Multifamily (5 or more) Residential Properties	19,276	2.1
Secured by Nonfarm Nonresidential Properties	501,632	54.7
Total Real Estate Loans	750,993	81.8
Commercial and Industrial Loans	154,956	16.9
Agricultural Production and Other Loans to Farmers	9,669	1.1
Consumer Loans	1,689	0.2
Obligations of State and Political Subdivisions in the U.S.	0	0.0
Other Loans	54	0.0
Lease Financing Receivable (net of unearned income)	0	0.0
Less: Unearned Income	0	0.0
Total Loans	917,361	100.0
<i>Source: Call Report</i>		

As reflected in the above table, the bank's significant loan types are commercial loans and residential real estate. The Call Report data shows that commercial loans, including those secured by nonfarm, nonresidential real estate, comprise 71.6 percent and one-to-four family residential real estate loans comprise 13.7 percent of the portfolio. Commercial loans, as a percent of total loans, have increased, while one-to-four residential real estate loans as a percent of total loans, have decreased during the review period. At the previous evaluation, commercial loans accounted for 59.2 percent of the portfolio with one-to-four family residential real estate loans at 21.6 percent. During the last evaluation period, the bank's management team changed, and the lending focus moved to primarily small and medium-sized businesses and Small Business Administration (SBA) lending. The revised lending focus resulted in a shift in the portfolio to increased commercial lending, which has continued through the current evaluation period.

Examiners did not identify any financial, legal, or other impediments that effect the bank's ability to meet credit needs of the assessment area.

DESCRIPTION OF ASSESSMENT AREAS

The CRA requires each financial institution to define one or more assessment areas within which its CRA performance will be evaluated. The FDIC evaluates the bank's CRA performance based on its activity within defined assessment areas. At the last evaluation, the bank had five designated assessment areas within one rated area: Non-MSA assessment area (Carteret County); Wilmington MSA assessment area (New Hanover County); New Bern MSA assessment area (Craven County); Raleigh MSA assessment area (Wake County); and Greenville MSA assessment area (Pitt County).

Dogwood State Bank's assessment areas have changed since the prior evaluation. On May 11, 2020, the bank opened a new branch in an upper-income census tract in Charlotte, North Carolina (Mecklenburg County), which resulted in the new Charlotte MSA assessment area. On March 8,

2021, the bank opened a new branch in an upper-income census tract in Sanford, North Carolina (Lee County), which resulted in a new second Non-MSA assessment area. Lastly, on December 12, 2022, the bank converted a Loan Production Office in a moderate-income census tract in Fayetteville, North Carolina (Cumberland County) to a full-service branch, which resulted in the new Fayetteville MSA assessment area.

As a result, Dogwood State Bank has seven designated assessment areas: Raleigh MSA (Wake County), Greenville MSA (Pitt County), Wilmington MSA (New Hanover County), Charlotte MSA (Mecklenburg County), Fayetteville MSA (Cumberland County), Carteret County, and Lee County. Carteret and Lee Counties are non-contiguous counties within the North Carolina Non-MSA; thus, the two Non-MSA assessment areas were analyzed separately; however, the counties will be presented together under a single Non-MSA assessment area since there were no anomalies in performance when analyzed.

Refer to the Description of Institution's Operations for each rated area and assessment area for more detailed information.

SCOPE OF EVALUATION

General Information

This evaluation covers the period from the previous evaluation dated February 18, 2020, to the current evaluation dated June 20, 2023. Examiners used the Interagency Intermediate Small Institution Examination Procedures to evaluate Dogwood State Bank's CRA Performance. These procedures include two tests: Lending and Community Development. An institution may not receive an overall Satisfactory rating unless both tests receive at least a Satisfactory rating.

Examiners evaluated the bank's lending data, deposit activity, and number of branches to determine the weighting of the assessment areas in the overall conclusions and ratings. As shown in the table below, a significant portion of lending and nearly half of bank-wide deposits are in the Raleigh MSA assessment area; therefore, the Raleigh MSA assessment area received the most weighting in the overall ratings and conclusions. The Non-MSA, Charlotte MSA, and Wilmington MSA assessment areas were afforded secondary weight given the levels of lending and/or deposits as well as the Non-MSA assessment area containing the most branch locations. The aforementioned assessment areas were reviewed using full-scope procedures given the level of bank operations in those areas. The Greenville MSA assessment area was reviewed using limited-scope procedures as the levels of lending and/or deposits are lesser. Since the Fayetteville MSA assessment area was established on December 12, 2022, the Lending Test does not include an analysis of lending performance for the assessment area. However, community development activities from December 12, 2022, through the evaluation date are included within the Community Development Test analysis.

Assessment Area Breakdown of Loans, Deposits, and Branches								
Assessment Area	Loans				Deposits		Branches	
	\$(000s)	%	#	%	\$(000s)	%	#	%
Raleigh MSA (FS)	59,166	44.4	285	41.6	410,779	48.2	1	14.3
Non-MSA (FS)	15,668	11.7	123	17.9	206,141	24.2	2	28.5

FS – Full-scope
LS – Limited-scope
*This assessment area is only included within Community Development Test given the branch opened in December 2022.

Activities Reviewed

The CRA evaluation requires examiners to review lending performance with respect to home mortgage, small business, and small farm loans, if significant. Examiners determined that the primary product line is commercial loans. This conclusion considered the bank's business strategy and the number and dollar volume of loans originated during the evaluation period. The bank has originated home mortgage loans; however, the loan product is not a primary focus or product for the institution with most of the home mortgage loans originated for investment properties. In 2021, the bank originated only 42 home mortgage loans and originated only 46 home mortgage loans in 2022. The home mortgage loans were originated across the 5 assessment areas analyzed (excluding Fayetteville MSA) resulting in limited loan volume in each assessment area. Additionally, the data reflects that a significant portion of the home mortgage loans do not have income data available. As a result, only 25 home mortgage loans in 2021 and 23 home mortgage loans in 2022 have income information available for analysis across the 5 assessment areas for Borrower Profile performance. As a result, home mortgage loans are not considered a major product line and are not included in the performance analysis. In addition, no other loan types, such as small farm loans and consumer loans, represent a major product line and are not included in the review. The following table includes loan originations made from January 1, 2022, to December 31, 2022.

Loans Originated or Purchased				
Loan Category	\$(000s)	%	#	%
Construction and Land Development	84,892	10.8	48	6.7
Secured by Farmland	506	0.0	1	0.1
Secured by 1-4 Family Residential Properties	89,751	11.5	116	16.2
Multi-Family (5 or more) Residential Properties	3,978	0.5	5	0.7
Commercial Real Estate Loans	357,860	45.7	189	26.4
Commercial and Industrial Loans	242,292	31.0	340	47.5
Agricultural Loans	3,000	0.4	1	0.1
Consumer Loans	690	0.1	16	2.3
Other Loans	0	0.0	0	0.0
Total Loans	782,969	100.0	716	100.0
<i>Source: Bank Data (January 1, 2022 – December 31, 2022)</i>				

Examiners reviewed the universes of small business loans originated in 2021 and 2022. The bank originated 270 small business loans totaling \$94.2 million in 2022. Of these loans originated, 111 loans totaling \$40.3 million were within the assessment areas. The 2022 lending performance was compared to the demographic data provided by the 2022 D&B data. The bank originated 946 small business loans totaling \$188.1 million in 2021. Of these loans originated, 575 loans totaling \$93.1 million were within the assessment areas. The 2021 lending performance was compared to the demographic data provided by the 2021 D&B data.

Only small business lending for 2022 is presented in the analysis, as this is the most recent full calendar year and the bank is not a reporter or collector of small business lending data. Lending performance for 2021 was also analyzed and only discussed when significant performance variances under the Geographic Distribution and Borrower Profile performance factors were noted. Only loans within the assessment areas are included in the Geographic Distribution and Borrower Profile analyses.

For the Geographic Distribution analysis, the small business lending performance is compared to the level businesses located in low-, moderate-, middle-, and upper-income census tracts, as applicable. For Borrower Distribution analysis, performance is compared to the level of businesses with gross annual revenues of \$1 million or less.

Community development activity, including community development loans, qualified investments, and community development services, conducted from the prior evaluation through the current evaluation were evaluated taking into account the periods in which the new or revised assessment areas were in operation. The Investment Test also included a review of qualified investments made prior to but still outstanding as of the current evaluation period.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

Dogwood State Bank demonstrated Satisfactory performance under the Lending Test. The geographic distribution reflects reasonable distribution throughout the assessment areas, with reasonable lending to businesses of different sizes. Additionally, the loan-to-deposit ratio is considered more than reasonable, and the majority of loans were originated within the assessment areas.

Loan-to-Deposit Ratio

The loan-to-deposit ratio is more than reasonable given the institution's size, financial condition, and assessment areas' credit needs. The loan-to-deposit ratio, calculated from Call Report data, averaged 98.9 percent over the past 13 quarters from March 31, 2020, to March 31, 2023. The ratio ranged from a low of 82.4 percent as of September 30, 2021, to a high of 130.6 percent as of September 30, 2020. The average loan-to-deposit ratio was compared to three similarly-situated institutions operating office locations within the assessment areas and of similar size, loan portfolio concentration, and product offerings to Dogwood State Bank. The bank's lending volume is comparable to or significantly above the lending of those institutions. The following table presents the average net loan-to-deposit ratios of the institutions.

Loan-to-Deposit Ratio Comparison		
Bank	Total Assets as of 03/31/2023 \$(000s)	Average Net Loan- to-Deposit Ratio (%)
Dogwood State Bank	1,175,114	98.9
Farmers & Merchants Bank, Granite Quarry, North Carolina	978,850	61.3
North State Bank, Raleigh, North Carolina	1,283,081	83.0
First Carolina Bank, Rocky Mount, North Carolina	2,235,118	98.3

Source: Reports of Condition and Income

Assessment Area Concentration

A majority of loans by number and slightly less than a majority by dollar volume of loans were originated in the assessment areas. The following table illustrates the distribution of small business loans inside and outside the assessment areas.

Lending Inside and Outside of the Assessment Area										
Loan Category	Number of Loans				Total #	Dollars Amount of Loans \$(000s)				Total \$(000s)
	Inside		Outside			Inside		Outside		
	#	%	#	%	\$	%	\$	%		
Small Business										
2021	575	60.8	371	39.2	946	93,081	49.5	95,051	50.5	188,132
2022	111	41.1	159	58.9	270	40,331	42.8	53,902	57.2	94,233
Total	686	56.4	530	43.6	1,216	133,412	47.2	148,953	52.8	282,365

Source: Bank Records.

Geographic Distribution

The geographic distribution of loans reflects reasonable distribution throughout the assessment areas. Performance is consistent throughout the full-scope assessment areas.

Borrower Profile

The distribution of loans reflects, given the demographics of the assessment areas, reasonable penetration among businesses of different sizes. Performance is consistent throughout the full-scope assessment areas.

Response to Complaints

The institution has not received any CRA-related complaints since the previous evaluation; therefore, this criterion did not affect the Lending Test rating.

COMMUNITY DEVELOPMENT TEST

Dogwood State Bank demonstrates excellent responsiveness to the community development needs of the assessment areas through the overall combined community development loans, qualified investments, and community development services. Examiners considered the institution's capacity and the need and availability of such opportunities within the assessment areas. While the bank provided limited community development services, the community development loans are substantial, and qualified investments are significant and very responsive to identified needs related to affordable housing.

Community Development Loans

Dogwood State Bank originated 120 community development loans totaling \$217.7 million during the evaluation period. This represents 25.9 percent of average total assets and 33.8 percent of average total loans. Community development loans include 54 PPP loans totaling \$42.9 million. Excluding the PPP loans, the remaining community development loans totaling \$174.8 million representing 20.8 percent of average total assets and 27.4 percent of average total loans. Refer to the individual assessment areas for examples of community development loans.

Of the total community development loans originated, 46 loans totaling \$88.7 million were originated in the broader regional or state-wide area and are considered given the bank adequately met the credit needs of its assessment areas. The following are examples of community development loans that were extended in the broader regional or state-wide area.

- \$1.8 million loan to an affordable housing complex that is a Low Income Housing Tax Credit (LIHTC) property located in a moderate-income census tract.
- two SBA 504 loans totaling \$3.5 million for business expansion, creating and retaining low- and moderate-income jobs.
- \$3.2 million SBA 7a loan for business expansion in a moderate-income census tract.

The following tables reflect the community development lending by activity year, purpose, and assessment area.

Qualified Investments

Dogwood State Bank made 101 qualified investments totaling approximately \$21.1 million. This total includes 76 qualified donations totaling \$93,000, 16 qualified investments in Mortgage Backed Securities (MBS) totaling \$18.4 million, 5 qualified Small Business Investment Company (SBIC) fund investments totaling \$600,000, 2 qualified investments in a local affordable housing initiative totaling

\$1.0 million, and 2 prior period investments in MBSs totaling \$969,000. This dollar amount of qualified investments represent 2.5 percent of average total assets and 23.8 percent of average total securities. Refer to the full-scope assessment areas for examples of qualified investments.

Given that the bank adequately met the credit needs of its assessment areas, investment activity in the broader regional or statewide area was considered. The regional investments include \$18.4 million in MBS and \$600,000 in SBIC investments. Additionally, 17 donations totaling \$23,700 are included. The following is an example of community development investments made within the broader regional area.

- From 2021 through 2023, the bank invested in \$600,000 in an SBIC with small business investment projects throughout the Southeastern United States, including North Carolina.

The following tables detail the qualified investments by year and by assessment area.

Three of the community development services benefitted a broader state-wide or regional area that included the bank's assessment areas. Examples of community development services in the broader regional or state-wide area are provided below.

- two employees served on the loan committee of a Certified Development Corporation (CDC) focused on promoting community economic development in North Carolina through the SBA 504 loan program.
- An employee served on a panel and provided information regarding SBA financing for small businesses at a community event located in a moderate-income census tract.

In addition, Dogwood State Bank operates two branches in moderate-income census tracts, representing 28.6 percent of total branches. These branches demonstrate the availability of banking services to low- and moderate-income individuals and in low-and moderate-income census tracts.

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

The bank's compliance with the laws relating to discrimination and other illegal credit practices was reviewed, including the Fair Housing Act and the Equal Credit Opportunity Act. Examiners did not identify any discriminatory or other illegal credit practices.

RALEIGH MSA ASSESSMENT AREA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN THE RALEIGH MSA ASSESSMENT AREA

The Raleigh-Cary, NC MSA consists of three counties; however, the bank delineated only Wake County as the assessment area. The assessment area has not changed since the last CRA evaluation. The bank operates one or 14.3 percent of its branch offices in the Raleigh MSA assessment area. The assessment area also represents 44.4 percent of bank-wide loans by dollar volume, 41.6 percent of bank-wide lending by number of loans, and 48.2 percent of bank-wide deposits.

Economic and Demographic Data

The level and composition of census tracts changed from the 2015 ACS data to the 2020 Census. While the number and income level distribution of the census tracts changed, the percentage of the population, owner-occupied housing, businesses, and other demographic data remained comparable between the census dates. The following table provides a comparison of the changes in census tracts.

Tract Income	2015 ACS	2020 Census	Change
Low-income	12	15	+3
Moderate-income	36	39	+3
Middle-income	57	77	+20
Upper-income	79	92	+13
Not Income Designation	3	7	+4
Totals	187	230	+43

The following table presents demographic information from the 2020 Census and 2022 D&B data.

Demographic Information for the Raleigh MSA Assessment Area						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA+ % of #

<i>Source: 2020 U.S. Census and 2022 D&B Data</i> <i>Due to rounding, totals may not equal 100.0 percent.</i> <i>(*) The NA category consists of geographies that have not been assigned an income classification.</i>						

The Geographic Distribution criterion compares small business loans to the percentage of businesses located in low-, moderate-, middle-, and upper-income census tracts. The 2020 Census data shows a significant majority of businesses are within the middle- and upper-income census tracts, indicating most of the lending opportunities are in these geographies. The moderate-income census tracts contain a fair level of businesses, with significantly less located in the low-income census tracts.

The analysis of small business loans under the Borrower Profile criterion compares the distribution of small business lending by gross annual revenue level. The D&B 2022 distribution of businesses based on gross annual revenue is listed below.

- 91.8 percent reported \$1 million or less;
- 2.2 percent reported more than \$1 million; and
- 6.0 percent did not report revenues.

The top industries in the Raleigh-Cary, NC MSA are professional and business services, government, and education and health services followed closely by retail trade and leisure and hospitality. Additionally, approximately 94.1 percent of businesses operate with nine or fewer employees. The top employers are WakeMed Health & Hospitals, NC State University, IBM Corp, UNC Rex Healthcare, and SAS Institute, Inc.

The 2020 unemployment rates within the assessment area increased sharply due to the COVID-19 pandemic. Unemployment rates dropped sharply in 2021 and are below pre-pandemic levels as of

April 2023. Unemployment rates were consistently below the state unemployment rate and the national average throughout the review period.

Unemployment Rates				
Area	2020	2021	2022	April 2023
	%	%	%	%
Wake County	6.4	4.1	3.1	3.0
North Carolina	7.3	4.9	3.6	3.4
National Average	8.1	5.4	3.6	3.4

Source: Bureau of Labor Statistics

Competition

The assessment area is highly competitive. According to the FDIC Deposit Market Share data as of June 30, 2022, 35 FDIC-insured institutions operate 236 branches within the assessment area. Of these institutions, Dogwood State Bank ranked 14th with a market share of 0.8 percent. First-Citizens Bank & Trust Company is the market leader with 32.4 percent of the market followed by Wells Fargo, National Association at 17.6 percent and Truist Bank at 14.1 percent.

The bank is not required to report its small business loan data and has not elected to do so. Therefore, the bank’s small business lending analysis does not include comparisons to aggregate data. The aggregate data, however, indicates the competition and demand for small business loans and is therefore included here as relevant performance context data. There is a high level of competition for small business loans within the assessment area. Aggregate data for 2021 (the most recent year available) shows 173 lenders reported 38,326 small business loans originated or purchased. The five top small business lenders accounted for 54.2 percent of the total market share by number of loans.

Community Contact

As part of the evaluation process, examiners contact third parties active in the assessment area to help identify the credit and community development needs of the assessment area and whether local financial institutions are responsive to those opportunities.

Examiners referenced an existing community contact with a non-profit economic development organization located in Raleigh. The organization primarily serves the residents of Wake County; however, the organization also secondarily serves the regional area referred to as the Triangle, which includes Durham, Orange, Harnett, Johnston, Chatham, and Franklin Counties. The organization’s mission is to advocate for growth policies that benefit existing and future residents and are climate-friendly by providing a voice for communities experiencing displacement from housing costs, burdened by a lack of transportation options, and most at-risk due to the changing economy and environment.

The contact indicated a need for affordable housing due to the high cost of living in the area. However, when the county created an affordable housing preservation and gap fund, the response from local financial institutions was disappointing with the majority of funds coming from other

large businesses. Opportunities for infrastructure investment also exist as Wake County is funding \$100 million for public transit expansion. Additionally, credit for small businesses will take an outsized role as smaller businesses begin to be allowed into existing residential communities.

Credit and Community Development Needs and Opportunities

Considering information from the community contact and demographic and economic data, examiners determined affordable housing represents a primary credit need for the assessment area. While housing prices seem to have leveled off, and they continue to be overvalued in the assessment area and housing affordability remains low. Rental affordability in Raleigh is below both North Carolina and the nationwide averages. Just over 35.0 percent of households within the assessment area are considered low- or moderate-income.

There is also a need for small business lending as 91.8 percent of businesses have revenues of \$1million or less and 94.1 percent of businesses have fewer than ten employees. Conditions are currently favorable for businesses in Raleigh due to a high concentration of prime-age workers, the low cost of doing business, and strong and improving net migration. Community development investment opportunities exist as infrastructure is strained, and there is a focus on public transit expansion.

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE RALEIGH MSA ASSESSMENT AREA

LENDING TEST

Dogwood State Bank demonstrated reasonable performance under the Lending Test. The Geographic Distribution reflects reasonable dispersion throughout the Raleigh MSA assessment area, and the Borrower Profile reflects reasonable penetration among businesses of different sizes.

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the assessment area.

Small Business Loans

The geographic distribution of small business loans is reasonable. Lending in low-income tracts in 2022 reflects excellent performance with more than three times the demographic levels. However, for 2021, lending in low-income tracts was 2.9 percent, which was slightly below the demographics of 3.9 percent. For moderate-income lending, lending in 2022 was above demographics while lending in 2021 stood at 18.5 percent, which was below demographics of 19.7 percent.

Geographic Distribution of Small Business Loans Raleigh MSA Assessment Area					
Tract Income Level	% of Businesses	#	%	\$(000s)	%
Low	4.9	7	16.7	3,596	19.9
Moderate	15.5	7	16.7	2,308	12.8
Middle	34.7	7	16.7	4,425	24.5
Upper	43.7	21	50.0	7,740	42.8

*Source: 2022 D&B Data and Bank Data.
Due to rounding, totals may not equal 100.0 percent.*

Borrower Profile

The distribution of loans reflects, given the demographics of the assessment area, reasonable penetration to businesses of different sizes.

Small Business Loans

The distribution of small business loans reflects reasonable penetration to businesses with gross annual revenues of \$1 million or less. Lending to small businesses was substantially below demographic data. However, lending to small businesses was significantly higher in 2021 at 56.0 percent but remained significantly below demographics of 89.3 percent. While the bank is not required to report small business loan data and is not compared to aggregate data, the aggregate data does provide information on the level of demand for small business loans. The most recent aggregate data available is 2021 which reflects all institutions reporting small business loans in Wake County originated 46.9 percent of the loans to small businesses. This indicates potentially lower demand and is reflective of the bank's lending.

COMMUNITY DEVELOPMENT TEST

Community development performance in the Raleigh MSA assessment area demonstrates excellent responsiveness to community development needs through community development loans, qualified investments, and community development services considering the bank's capacity and the need

and availability of such opportunities in the assessment area. While the bank provided limited community development services, the community development loans are substantial. Additionally, qualified investments are significant and very responsive to affordable housing, which is an identified need.

Community Development Loans

The bank originated 30 community development loans totaling \$63.2 million in the Raleigh MSA assessment area. This level of activity represents 25.0 percent by number and 29.0 percent by dollar volume of bank-wide community development loans. Fourteen loans for \$24.5 million were PPP loans. Examples of community development loans follow.

- Two SBA 504 loans totaling \$3.6 million to a restaurant located in a low-income census tract, which provides employment for low- and moderate-income individuals.
- \$7.4 million loan for the purchase of and improvements to a multi-structure office complex located in a moderate income census tract. The business plans to occupy a vacant property within the complex and bring additional businesses to the area.
- \$4.5 million loan to refinance an existing loan and provide additional funds to a local municipal development firm for further development of mixed-use real estate in a Designated Qualified Opportunity Zone located in a low-income census tract.

Qualified Investments

Qualified investments total \$6.6 million and represent 30.5 percent of bank-wide qualified investments. The total includes qualified investments in MBSs of \$1.1 million and 19 donations totaling \$41,023. Of the donations, \$255 benefitted affordable housing and \$40,768 benefitted community services. In addition, \$5.5 million of the regional MBS investments that impact various assessment areas specifically benefit this assessment area. Provided below are examples of donations that benefitted the assessment area.

- \$2,500 to a non-profit organization providing free pre-school to low- and moderate-income children.
- \$3,750 to a non-profit child development center located in a low-income census tract. The non-profit's mission is to provide life changing therapies and education experiences to children with special needs at no cost to their families.
- \$5,000 to a non-profit organization that conducts fundraising with the funds provided to various organizations providing community services to low- and moderate-income individuals.

Community Development Services

The bank provided 3 community development services in the Raleigh MSA assessment area. Examples of the community development services follow.

- An employee served on the community board of a non-profit organization that conducts fundraising with the funds allocated to various organizations providing community services to low- and moderate-income individuals.
- An employee served on the Board and Executive Committee of non-profit organization that works with low- and moderate-income individuals looking for a second chance of success in life. The organization provides a framework for these individuals to transform their lives by seeking employment, becoming financially literate, and navigating housing and transportation needs.

NON-MSA ASSESSMENT AREA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN THE NON-MSA ASSESSMENT AREA

The Non-MSA assessment area consists of two counties: Carteret and Lee Counties. Lee County was added to the Non-MSA assessment area when a branch was opened in Sanford in March 2021. The bank operates two or 28.6 percent of its branch offices in the Non-MSA assessment area. The assessment area also represents 11.7 percent of the bank-wide loans by dollar volume, 17.9 percent of bank-wide lending by number of loans, and 24.2 percent of bank-wide deposits.

The level and composition of census tracts changed from the 2015 ACS data to the 2020 Census. The overall demographics also reflect variances. The percentage of businesses in moderate-income tracts decreased by nearly half with a similar increase in businesses in the middle-income tracts. Population levels also transitioned from the moderate-income tracts primarily into the middle-income tracts with some moving to the low-income tract. The following table provides a comparison of the changes in census tracts.

Tract Income	2015 ACS	2020 Census	Change
Low-income	0	1	+1
Moderate-income	7	5	-2
Middle-income	17	19	+2
Upper-income	25	21	-4
Not Income Designation	3	3	0
Totals	52	49	-3

The following table presents demographic information from the 2020 Census and 2022 D&B data.

<i>Source: 2020 U.S. Census and 2022 D&B Data</i> <i>Due to rounding, totals may not equal 100.0 percent.</i> <i>(*) The NA category consists of geographies that have not been assigned an income classification.</i>						

The Geographic Distribution criterion compares small business loans to the percentage of businesses located in low-, moderate-, middle-, and upper-income census tracts. The 2020 Census data shows the vast majority of businesses are within the upper- and middle-income census tracts, indicating most of the lending opportunities are in these geographies. Moderate-income tracts contain lower level of businesses, with low-income tracts reflecting nominal businesses.

The analysis of small business loans under the Borrower Profile criterion compares the distribution of small business lending by gross annual revenue level. The D&B 2022 distribution of businesses based on gross annual revenue is listed below.

- 89.7 percent reported \$1 million or less;
- 2.7 percent reported more than \$1 million; and
- 7.6 percent did not report revenues.

The top industries in the Non-MSA assessment area are services and retail trade. Additionally, approximately 93.6 percent of businesses operate with nine or fewer employees. According to Access NC 2020, the top employers in Lee County are Lee County Schools, Caterpillar, Inc., Pilgrim's Pride Corporation, and Pentair Water Pool & Spa, Inc. According to NCCommerce.com, the largest employers in Carteret County are Carteret County Board of Education, Carteret County General, Carteret County Government, and Wal-mart Associates, Inc.

The 2020 unemployment rates within the assessment area increased sharply due to the COVID-19 pandemic. Unemployment rates dropped sharply in 2021 and are below pre-pandemic levels as of

April 2023. Unemployment rates in Lee County were generally higher than state level rates but comparable to national rates in 2020 and 2021 and above the national rate in 2022 and as of April 2023. For Carteret County, rates were consistently below or at the state and national levels.

Unemployment Rates				
Area	2020	2021	2022	April 2023
	%	%	%	%
Lee County	8.0	5.5	4.2	3.9
Carteret County	6.3	4.2	3.5	3.2
North Carolina	7.3	4.9	3.6	3.4
National Average	8.1	5.4	3.6	3.4

Source: Bureau of Labor Statistics

Competition

The assessment area is moderately competitive. According to the FDIC Deposit Market Share data as of June 30, 2022, 13 FDIC-insured institutions operate 33 branches within the assessment area. Of these institutions, Dogwood State Bank ranked 5th with a market share of 6.8 percent. Truist Bank, First-Citizens Bank & Trust Company, First Bank, and Wells Fargo Bank, National Association are the top market holders with a combined 77.5 percent of the market.

The bank is not required to report its small business loan data and has not elected to do so. Therefore, the bank's small business lending analysis does not include comparisons to aggregate data. The aggregate data, however, indicates the competition and demand for small business loans and is therefore included here as relevant performance context data. There is a high level of competition for small business loans within the assessment area. Aggregate data for 2021 (most recent year available) shows 82 lenders reported 3,836 small business loans originated or purchased. The four top small business lenders accounted for 51.3 percent of the total market share by number.

Credit and Community Development Needs and Opportunities

Considering information from demographic and economic data, examiners determined affordable housing represents a primary credit need for the assessment area. Roughly 40.0 percent of families within the assessment area are considered low- or moderate-income, with low-income families earning less than \$32,000 annually compared to a median housing value of \$224,756. Additionally, there is a need for small business lending as nearly 90.0 percent of businesses have revenues of \$1 million or less and 93.6 percent of businesses have fewer than ten employees.

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE NON-MSA ASSESSMENT AREA

LENDING TEST

Dogwood State Bank demonstrated reasonable performance under the Lending Test. The Geographic Distribution reflects reasonable dispersion throughout the Non-MSA MSA assessment area, and the Borrower Profile reflects reasonable penetration among businesses of different sizes.

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the assessment area.

Small Business Loans

The geographic distribution of small business loans reflects reasonable dispersion throughout the assessment area. In 2022, the bank did not originate any loans in the sole low-income census tract; however, only 1.9 percent of businesses are located in the tract, indicating limited opportunity. There were no low-income census tracts in the assessment area for 2021. Lending in moderate-income tracts exceeded the demographics for 2022 but stood at 13.0 percent for 2021 which was well below demographics of 22.3 percent.

Geographic Distribution of Small Business Loans Non-MSA Assessment Area					
Tract Income Level	% of Businesses	#	%	\$(000s)	%
Low	1.9	0	0.0	0	0.0
Moderate	11.9	2	13.3	707	16.6

<small>Source: 2022 D&B Data and Bank Data. Due to rounding, totals may not equal 100.0 percent.</small>					

Borrower Profile

The distribution of loans reflects, given the demographics of the assessment area, reasonable penetration among businesses of different sizes.

Small Business Loans

The distribution of small business loans reflects reasonable penetration to businesses with gross annual revenues of \$1 million or less. Lending to small businesses was substantially below demographic data. However, lending to small businesses was significantly higher in 2021 at 72.2 percent but still below demographics of 87.3 percent. While the bank is not required to report small business loan data and is not compared to aggregate data, the aggregate data does provide information on the level of demand for small business loans. The most recent aggregate data

available is 2021 which reflects all institutions reporting small business loans in the Non-MSA assessment area originated 53.8 percent of the loans to small businesses. This indicates potentially lower demand for these loans with the bank's performance indicative of good responsiveness to the small business lending demand.

Distribution of Small Business Loans by Gross Annual Revenue Category Non-MSA Assessment Area

COMMUNITY DEVELOPMENT TEST

Community development performance in the Non-MSA assessment area demonstrates adequate responsiveness to community development needs through community development loans, qualified investments, and community development services considering the bank's capacity and the need and availability of such opportunities in the assessment area.

Community Development Loans

The bank originated 11 community development loans totaling \$3.4 million in the Non-MSA assessment area. This level of activity represents 9.2 percent by number and 1.6 percent by dollar of bank-wide community development loans. Examples of community development loans follow.

- SBA 504 loan for \$1.6 million to refinance the original purchase of a hotel providing employment for the area.
- PPP loan for \$12,900 to a non-profit organization located in a moderate-income census tract that helped retain jobs.
- PPP loan for \$17,600 to a non-profit organization that provides rehabilitation services related to drug and alcohol use.

Qualified Investments

Qualified investments total \$1.8 million and represent 8.3 percent of bank-wide qualified investments. The total includes a qualified investment of \$500,000 in an affordable housing project and 13 donations totaling \$6,380 for community service activities and affordable housing. In addition, \$1.3 million of the regional MBS investments that impact various assessment areas specifically benefit this assessment area. Provided below are examples of donations that benefitted the assessment area.

- \$4,000 to a non-profit organization whose mission is to provide safe and affordable housing, education, employment, healthcare, and family support to low- and moderate income individuals.
- \$1,500 to a non-profit organization that builds tiny home communities for the disabled and chronically homeless.

Community Development Services

The bank provided no community development services in the Non-MSA MSA assessment area.

CHARLOTTE MSA ASSESSMENT AREA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN THE CHARLOTTE MSA ASSESSMENT AREA

The Charlotte-Concord-Gastonia NC-SC Multi-state MSA (MMSA) consists of 11 counties with 8 in North Carolina and 3 in South Carolina; however, the bank delineated only Mecklenburg County, North Carolina as the assessment area. The assessment area was added when a branch was opened in Charlotte in May 2020. The bank operates 1 or 14.3 percent of its branch offices in the Charlotte MSA assessment area. The assessment area also represents 23.6 percent of the bank-wide loans by dollar volume, 18.9 percent of bank-wide lending by number of loans, and 8.4 percent of bank-wide deposits.

Economic and Demographic Data

The level and composition of census tracts changed from the 2015 ACS data to the 2020 Census. The population levels migrated from the low-income tracts to a significant increase in the moderate-income tracts, while the middle- and upper-income tracts remained comparable. Business percentages saw a decrease in low-, middle-, and upper-income tracts with an increase in moderate-income tracts, with similar changes in the owner-occupied housing units. The following table provides a comparison of the changes in census tracts.

Tract Income	2015 ACS	2020 Census	Change
Low-income	29	19	-10
Moderate-income	50	77	+27
Middle-income	52	71	+19
Upper-income	98	130	+32
Not Income Designation	4	8	+4
Totals	233	305	+72

The following table presents demographic information from the 2020 Census and 2022 D&B data.

			Median Gross Rent			\$1,221
			Families Below Poverty Level			7.8%
<i>Source: 2020 U.S. Census and 2022 D&B Data</i> <i>Due to rounding, totals may not equal 100.0 percent.</i> <i>(*) The NA category consists of geographies that have not been assigned an income classification.</i>						

The Geographic Distribution criterion compares small business loans to the percentage of businesses located in low-, moderate-, middle-, and upper-income census tracts. The 2020 Census data shows that nearly half of businesses are within the upper-income census tracts, indicating most of the lending opportunities are in these geographies. The businesses within the moderate- and middle-income census tracts are comparable and indicate lending opportunities. The low-income tracts accounts for significantly less demographic levels.

The analysis of small business loans under the Borrower Profile criterion compares the distribution of small business lending by gross annual revenue level. The D&B 2022 distribution of businesses based on gross annual revenue is listed below.

- 91.6 percent reported \$1 million or less;
- 2.4 percent reported more than \$1 million; and
- 6.0 percent did not report revenues.

The top industries in the Charlotte-Concord-Gastonia, NC-SC MMSA are professional and business services, government, and retail trade. Additionally, approximately 94.4 percent of businesses operate with nine or fewer employees. The top employers are Atrium Health, Wells Fargo & Co., Walmart, Bank of America Corp., and Novant Health, Inc.

The 2020 unemployment rates within the assessment area increased sharply due to the COVID-19 pandemic. Unemployment rates dropped sharply in 2021, and are below pre-pandemic levels as of

April 2023. Unemployment rates were generally consistent with the state unemployment rate and the national average over the review period.

Unemployment Rates				
Area	2020	2021	2022	April 2023
	%	%	%	%
Mecklenburg County	7.6	4.9	3.5	3.3
North Carolina	7.3	4.9	3.6	3.4
National Average	8.1	5.4	3.6	3.4

Source: Bureau of Labor Statistics

Competition

The assessment area is highly competitive. According to the FDIC Deposit Market Share data as of June 30, 2022, 33 FDIC-insured institutions operate 247 branches within the assessment area. Of these institutions, Dogwood State Bank ranked 21st with a market share of less than 0.1 percent. Bank of America, National Association dominates the deposit market with a 63.0 percent market share. Truist Bank holds 20.1 percent of the market with Wells Fargo Bank, National Association at 12.1 percent.

The bank is not required to report its small business loan data and has not elected to do so. Therefore, the bank's small business lending analysis does not include comparisons to aggregate data. The aggregate data, however, indicates the competition and demand for small business loans and is therefore included here as relevant performance context data. There is a high level of competition for small business loans within the assessment area. Aggregate data for 2021 (most recent year available) shows 184 lenders reported 44,161 small business loans originated or purchased. The five top small business lenders accounted for 53.2 percent of the total market share by number.

Credit and Community Development Needs and Opportunities

Considering information from demographic and economic data, examiners determined affordable housing represents a primary credit need for the assessment area. Single-family housing with the remains overvalued, and new building has plateaued. Single family permitting is below pre-pandemic levels due to economic uncertainty and affordability issues. Rental affordability in remains low as well but is slightly above both North Carolina and the nationwide averages. Roughly 37.0 percent of families within the assessment area are considered low- or moderate-income.

There is also a need for small business lending as 91.6 percent of businesses have revenues of \$1 million or less and 94.4 percent of businesses have fewer than ten employees. Conditions are currently favorable for businesses in Charlotte-Concord-Gastonia, NC-SC MMSA due to a highly skilled workforce; the low cost of doing business; and strong, positive net migration.

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE CHARLOTTE MSA ASSESSMENT AREA

LENDING TEST

Dogwood State Bank demonstrated reasonable performance under the Lending Test. The Geographic Distribution reflects reasonable dispersion throughout the Charlotte MSA assessment area, while the Borrower Profile reflects reasonable penetration among businesses of different sizes.

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the assessment area.

Small Business Loans

The geographic distribution of small business loans reflects reasonable dispersion throughout the assessment area. Lending in low-income census tracts in 2022 was comparable to demographics. For moderate-income census tracts, lending was below demographic data.

Geographic Distribution of Small Business Loans Charlotte MSA Assessment Area					
Tract Income Level	% of Businesses	#	%	\$(000s)	%
Low	5.1	1	4.5	139	1.7
Moderate	23.5	4	18.2	1,699	21.0
Middle	20.6	4	18.2	1,572	19.4
Upper	48.3	13	59.1	4,698	57.9

Totals	100.0	22	100.0	8,108	100.0

Source: 2022 D&B Data and Bank Data.

Borrower Profile

The distribution of loans reflects, given the demographics of the assessment area, reasonable penetration among businesses of different sizes.

Small Business Loans

The distribution of small business loans reflects reasonable penetration to businesses with gross annual revenues of \$1 million or less. Lending to small businesses was substantially below demographic data. However, lending to small businesses was higher in 2021 at 51.9 percent by number of loans but remained significantly below demographics of 88.8 percent. While the bank is not required to report small business loan data and is not compared to aggregate data, the aggregate data does provide information on the level of demand for small business loans. The most recent aggregate data available is 2021, which reflects all institutions reporting small business loans in Mecklenburg County originated 45.5 percent of the loans to small businesses. This indicates potentially lower demand for these loans and is reflective of the bank's lending.

Distribution of Small Business Loans by Gross Annual Revenue Category Charlotte MSA Assessment Area					
Gross Revenue Level	% of Businesses	#	%	\$(000s)	%

COMMUNITY DEVELOPMENT TEST

Community development performance in the Charlotte MSA assessment area reflects excellent responsiveness to community development needs through community development loans, qualified investments, and community development services considering the bank's capacity and the need and availability of such opportunities in the assessment area. While the bank provided limited community development services, the community development loans are substantial. Additionally, the bank has a high level of investments in the assessment area that are very responsive to affordable housing, which is an identified need.

Community Development Loans

The bank originated 23 community development loans totaling \$38.8 million in the Charlotte MSA assessment area. This level of activity represents 19.2 percent by number and 17.8 percent by dollar of bank wide community development loans. Twelve loans for \$4.3 million were PPP loans. Examples of community development loans follow.

- a \$1.9 million loan for the purchase of a multi-tenant neighborhood shopping center. The shopping center is located in an NC Opportunity Zone and a low-income census tract.
- a \$3.0 million loan for the purchase of and improvements to three commercial buildings located in a Designated Qualified Opportunity Zone and low-income census tract.
- a \$2.9 million loan to construct a 20 unit multi-family affordable housing project in a moderate-income census tract.

Qualified Investments

Qualified investments total \$3.7 million and represent 17.0 percent of bank-wide qualified investments. The total includes 19 donations totaling \$15,163. Of the donations, \$8,850 benefitted community services and \$6,313 benefitted economic development. The remaining investments consist of regional MBSs that impact multiple assessment areas but specifically benefit this assessment area. Provided below are examples of donations that benefitted the assessment area.

- \$6,313 to a local economic development organization whose mission is to grow the economy, advocate for businesses, and convene diverse stakeholders for the city of

Charlotte. Programs include business recruitment, assistance with site selection, and resources for small businesses.

- \$1,750 to a community organization that provides services to low- and moderate-income youth through programs that focus on health, education, and overall well-being.
- \$3,000 to a non-profit organization provides beds to low- and moderate-income children.

Community Development Services

The bank provided one community development service in the Charlotte MSA assessment area. A bank employee serves as Chairman of the Board for a non-profit organization that provides beds to low- and moderate-income children.

WILMINGTON MSA ASSESSMENT AREA – Full-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN THE WILMINGTON MSA ASSESSMENT AREA

The Wilmington, NC MSA consists of two counties; however, the bank delineated only New Hanover County. The assessment area has not changed since the last CRA evaluation. The bank operates one or 14.3 percent of its branch offices in the Wilmington MSA assessment area. The assessment area also represents 16.3 percent of the bank-wide loans by dollar volume, 16.5 percent of bank-wide lending by number of loans, and 14.5 percent of bank-wide deposits.

Economic and Demographic Data

The level and composition of census tracts changed from the 2015 ACS data to the 2020 Census. There was a significant increase in the level of moderate-income tracts between census tabulations, resulting in corresponding significant changes to the distribution of the population, businesses, and owner-occupied housing. The following table provides a comparison of the changes in census tracts.

Tract Income	2015 ACS	2020 Census	Change
Low-income	8	4	-4
Moderate-income	4	16	+12
Middle-income	14	15	+1
Upper-income	17	17	0
No Income Designation	2	3	+1
Totals	45	55	+10

The following table presents demographic information from the 2020 Census and 2022 D&B data.

Demographic Information for the Wilmington MSA Assessment Area

Median Family Income - Wilmington, NC MSA	\$78,711	Median Housing Value				\$276,572
		Median Gross Rent				\$1,044
		Families Below Poverty Level				8.4%
<i>Source: 2020 U.S. Census and 2022 D&B Data</i> <i>Due to rounding, totals may not equal 100.0 percent.</i> <i>(*) The NA category consists of geographies that have not been assigned an income classification.</i>						

The Geographic Distribution criterion compares small business loans to the percentage of businesses located in low-, moderate-, middle-, and upper-income census tracts. The upper-income tracts contain the highest percentage of businesses with comparable levels in the moderate- and middle-income tracts and a limited level of businesses in the low-income census tracts.

The analysis of small business loans under the Borrower Profile criterion compares the distribution of small business lending by gross annual revenue level. The D&B 2022 distribution of businesses based on gross annual revenue is listed below.

- 90.8 percent reported \$1 million or less;
- 2.6 percent reported more than \$1 million; and
- 6.6 percent did not report revenues.

The top industries in the Wilmington, NC MSA are education and health services, professional and business services, and leisure and hospitality services. Additionally, approximately 93.6 percent of businesses operate with nine or fewer employees. The top employers are PPD Inc., Novant Health, Walmart Inc., General Electric Co., and UNC Wilmington.

The 2020 unemployment rates within the assessment area increased sharply due to the COVID-19 pandemic. Unemployment rates dropped sharply in 2021 and are below pre-pandemic levels as of April 2023. Unemployment rates have consistently been lower than the state unemployment rate and the national average.

Unemployment Rates				
Area	2020	2021	2022	April 2023
	%	%	%	%
New Hanover County	7.2	4.3	3.3	3.1
North Carolina	7.3	4.9	3.6	3.4
National Average	8.1	5.4	3.6	3.4
<i>Source: Bureau of Labor Statistics</i>				

Competition

The assessment area is highly competitive. According to the FDIC Deposit Market Share data as of June 30, 2022, 21 FDIC-insured institutions operate 53 branches within the assessment area. Of these institutions, Dogwood State Bank ranked 12th with a market share of 0.8 percent. Competitor institutions in the assessment area include Live Oak Banking Company, Truist Bank, and Wells Fargo Bank, NA. Together, the three competitor institutions account for 73.2 percent of the market share.

The bank is not required to report its small business loan data and has not elected to do so. Therefore, the bank's small business lending analysis does not include comparisons to aggregate data. The aggregate data, however, indicates the competition and demand for small business loans and is therefore included here as relevant performance context data. There is a high level of competition for small business loans within the assessment area. Aggregate data for 2021 (the most recent year available) shows 106 lenders reported 9,506 small business loans originated or purchased. The five top small business lenders accounted for 46.9 percent of the total market share by number.

Credit and Community Development Needs and Opportunities

Considering information from demographic and economic data, examiners determined affordable housing represents a primary credit need for the assessment area. Housing prices continue to increase and be overvalued in the assessment area. Rental affordability in the Wilmington, NC MSA remains low and is lower than the North Carolina and the nationwide averages. Demographics reflect that 39.4 percent of families within the assessment area are considered low- or moderate-income.

There is also a need for small business lending as 90.8 percent of businesses have revenues of \$1 million or less, and 93.6 percent of businesses have fewer than ten employees. Conditions are currently favorable for businesses in Wilmington, NC MSA due to favorable migration trends, above-average population growth, low cost of doing business, and a well-educated workforce.

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE WILMINGTON MSA ASSESSMENT AREA

LENDING TEST

Dogwood State Bank demonstrated reasonable performance under the Lending Test. The Geographic Distribution reflects reasonable dispersion throughout the Wilmington MSA assessment area, and the Borrower Profile reflects reasonable penetration among businesses of different sizes.

Geographic Distribution

The geographic distribution of loans reflects reasonable dispersion throughout the assessment area.

Small Business Loans

The geographic distribution of small business loans reflects reasonable dispersion throughout the assessment area. In 2022, lending in both low- and moderate-income census tracts was significantly above demographic data. However, for 2021, lending in low-income tracts was below demographics while moderate-income tract lending mirrored demographics.

Geographic Distribution of Small Business Loans Wilmington MSA Assessment Area					
Tract Income Level	% of Businesses	#	%	\$(000s)	%
Low	4.1	2	9.1	550	7.0
Moderate	27.2	9	40.9	2,751	35.2

Borrower Profile

The distribution of loans reflects, given the demographics of the assessment area, reasonable penetration among businesses of different sizes.

Small Business Loans

The distribution of small business loans reflects reasonable penetration to businesses with gross annual revenues of \$1 million or less. Lending to small businesses was substantially below demographic data. However, lending to small businesses was much higher in 2021 at 59.3 percent but still significantly below demographics of 88.2 percent. While the bank is not required to report small business loan data and is not compared to aggregate data, the aggregate data does provide information on the level of demand for small business loans. The most recent aggregate data available is 2021 which reflects all institutions reporting small business loans in New Hanover

County originated 46.7 percent of the loans to small businesses. This indicates potentially lower demand for these loans and is reflective of the bank's lending.

COMMUNITY DEVELOPMENT TEST

Community development performance in the Wilmington MSA assessment area demonstrates excellent responsiveness to community development needs through community development loans, qualified investments, and community development services considering the bank's capacity and the need and availability of such opportunities in the assessment area. While the bank provided limited community development services, the community development loans are significant. Additionally, qualified investments are significant and very responsive to affordable housing, which is an identified need.

Community Development Loans

The bank originated nine community development loans totaling \$23.6 million in the Wilmington MSA assessment area. This level of activity represents 7.5 percent by number and 10.9 percent by dollar of bank wide community development loans. Two loans totaling \$1.3 million were PPP loans. Examples of community development loans follow.

- \$3.1 million loan for the refinance of a commercial property and purchase of adjacent commercial property for business expansion. The commercial properties are located in a Designated Qualified Opportunity Zone and a low-income census tract.
- \$3.0 million SBA 7a loan for the purchase of commercial property and business expansion in a moderate-income census tract.
- \$8.8 million loan to purchase a commercial industrial complex located in a moderate-income census tract.

Qualified Investments

Qualified investments total \$4.7 million and represent 21.7 percent of bank-wide qualified investments. The total includes a qualified investment of \$500,000 in an affordable housing project and four donations totaling \$5,500 for community service activities. In addition, \$4.2 million of the total qualified investments are regional MBS investments that impact various assessment areas but

specifically benefit this assessment area. Provided below are examples of donations that benefitted the assessment area.

- \$4,000 to a non-profit organization whose mission is to provide safe and affordable housing, education, employment, healthcare, and family support to low- and moderate income individuals.
- \$1,500 to a non-profit organization that builds tiny home communities for the disabled and chronically homeless.

Community Development Services

The bank provided no community development services in the Wilmington MSA assessment area during the evaluation period.

GREENVILLE MSA ASSESSMENT AREA – Limited-Scope Review

DESCRIPTION OF INSTITUTION’S OPERATIONS IN THE GREENVILLE MSA ASSESSMENT AREA

The Greenville MSA assessment area consists Pitt County, which is the entire Greenville, NC MSA. The assessment area has not changed since the last CRA evaluation. The bank operates one or 14.3 percent of its branch offices in the Greenville MSA assessment area. The assessment area also represents 3.9 percent of the bank-wide loans by dollar volume, 5.1 percent of bank-wide lending by number of loans, and 4.7 percent of bank-wide deposits.

According to the 2020 Census, the assessment area consists of 42 census tracts, including 2 low-income census tracts, 8 moderate-income census tracts, 18 middle-income census tracts, and 10 upper-income census tracts. Four census tracts have no income designation. The number and tract income levels changed from the 2015 ACS data. For the 2015 ACs, the assessment area contained 32 census tracts, including 4 low-income census tracts, 8 moderate-income census tracts, 11 middle-income census tracts, and 9 upper-income census tracts. The following table presents demographic information from the 2020 Census and 2022 D&B data.

Demographic Information for the Greenville MSA Assessment Area						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	42	4.8	19.0	42.9	23.8	9.5

Household Distribution by Income Level	70,683	24.3	16.4	17.2	42.1	0.0
Median Family Income - Greenville, NC MSA	\$63,272	Median Housing Value				\$139,503
		Median Gross Rent				\$792
		Families Below Poverty Level				12.9%
<small>Source: 2020 U.S. Census and 2022 D&B Data Due to rounding, totals may not equal 100.0 percent. (*) The NA category consists of geographies that have not been assigned an income classification.</small>						

The assessment area’s median housing value is \$139,503. The FFIEC-updated MFI for 2022 is \$72,200. The April 2023 unemployment rate for Pitt County is 4.0 percent, and the April 2023 statewide and national averages are both 3.4 percent. Unemployment rates in the county, state, and Nation average have generally been declining since December 2020.

CONCLUSIONS ON PERFORMANCE CRITERIA IN THE GREENVILLE MSA ASSESSMENT AREA

LENDING TEST

The institution's lending performance in the assessment area is below the lending performance for the institution; however, it does not change the institution rating.

Tables demonstrating the Geographic Distribution and Borrower Profile performance are detailed in the Appendices.

COMMUNITY DEVELOPMENT TEST

The institution's community development performance in the assessment area is below with the community development performance overall; however, it does not change the institution rating

Please refer to the information on community development activities in the overall analysis for the level of community development loan, qualified investments, and community development services within the assessment area. In addition to the qualified investment noted in the table, \$2.6 million of the total qualified regional MBS investments that impact various assessment areas specifically benefit this assessment area.

APPENDICES

INTERMEDIATE SMALL BANK PERFORMANCE CRITERIA

Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by considering the following criteria:

- 1) The bank's loan-to-deposit ratio, adjusted for seasonal variation, and, as appropriate, other lending-related activities, such as loan originations for sale to the secondary markets, community development loans, or qualified investments;
- 2) The percentage of loans, and as appropriate, other lending-related activities located in the bank's assessment area(s);
- 3) The geographic distribution of the bank's loans;
- 4) The bank's record of lending to and, as appropriate, engaging in other lending-related activities for borrowers of different income levels and businesses and farms of different sizes; and
- 5) The bank's record of taking action, if warranted, in response to written complaints about its performance in helping to meet credit needs in its assessment area(s).

Community Development Test

The Community Development Test considers the following criteria:

- 1) The number and amount of community development loans;
- 2) The number and amount of qualified investments;
- 3) The extent to which the bank provides community development services; and
- 4) The bank's responsiveness through such activities to community development lending, investment, and service needs.

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Institution CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Institution CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose institution:
 - (i) Has not been reported or collected by the institution or an affiliate for consideration in the institution's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits the institution's assessment area(s) or a broader statewide or regional area including the institution's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of the institution's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or
- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (e.g. geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (e.g. innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (e.g. geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as non-MSA): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in "loans to small farms" as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area's population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, "urban" consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

"Urban" excludes the rural portions of "extended cities"; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.
